Utrecht, 11 November 2010

Lyreco, market leader in office products launches the 'zero emission delivery'-project in the Netherlands

Lyreco, global leader on the office products market, launches the electric delivery van on the day of sustainability in the Netherlands.

Lyreco is the only national distributor of office products using its own transport fleet for regional distribution.

Lyreco thus directly influences - as the only player in the sector - the customer service and the car fleet used for distribution and its impact on the environment.

Lyreco has been booking good results for years with Sustainable Enterprising.

Here are a few examples:

- In 2004 Lyreco was the first in the sector to receive the NEN-EN-ISO 14001 certificate
- Lyreco joined the Global Compact Initiative in 2004
- In 2008: expansion of the "state-of-the-art" Distribution centre for the Benelux with strong environmentally friendly accents
- In 2009 Lyreco became stakeholder in Agentschap NL
- "Lyreco for Education" charity programme in co-operation with AEA
- Membership of MVO Nederland in 2010
- FSC certificate: unique in the office sector!
- 11/11/2010: launching of the "zero emission" project - Electric powered delivery van

The electric Lyreco delivery van will be launched at the national Elfstedentocht with electric cars at 2.30 pm by a Dutch celebrity at the Lyreco headquarters in Utrecht - Europalaan 460.

For more information about Lyreco please visit www.lyreco.nl, www.lyreco.be and www.lyreco.lu .
